Directors, Independent WIC Local Agencies
Herman Horn, Chief, Bureau of Regional/Local Health Operations

FROM: Gerald D. Cannaday, Jr. [Original Signed]
Chief, Bureau of Nutrition Services

DATE: August 31, 2001

SUBJECT: Additional Three Cans of Concentrate

Mead Johnson has notified the WIC Program that they have excess inventory of Enfamil with Iron Concentrate samples. This inventory was manufactured for a specific retail chain and has 15 cans per case rather than the normal 12 cans per case. As a result, Mead Johnson will use this excess inventory for WIC Samples and Physician Office Samples.

Starting August 21, 2001 Mead Johnson will begin shipping the 15 can cases. The formula has an expiration date of August, 2002 and the only difference other than the number of cans per case is the item code. There are no different markings on the can or case.

Local Agencies and clinics must document the receipt and issuance of the 15 cans on the Contract Formula Sample log. Also, please note on the Texas WIC Free Trade report which is sent monthly by the State Agency for verification of free sample formula case quantities there will be two line items for Enfamil with Iron Concentrate. The current line item for a 12 can case will remain the same and reads as follows: ENFAMIL W/I 13OZ CONC 12. The second line item will be for a 15 can case and will read as follows: ENFAMIL W/I 13OZ CONC 15.

Should you have any questions regarding the above changes, please contact Kim Gold at (512) 458-7111, Ext. 2215.
